**Sherida Studwood -MDH-:** So everybody's good. All right. all right, so I will now like to turn this over to our program representative

**Sherida Studwood -MDH-:** and you take it over.

**Kiauna Graham -MDH-:** Okay, thank you. Can everybody hear me? And okay good.

**Sherida Studwood -MDH-:** I can.

**Kiauna Graham -MDH-:** Um, let me see. I do have a slides sherida. So

**Kiauna Graham -MDH-:** Present. Okay,...

**Sherida Studwood -MDH-:** I will stop sharing.

**Kiauna Graham -MDH-:** thank you.

**Kiauna Graham -MDH-:** One second.

**Kiauna Graham -MDH-:** Okay, so good afternoon and welcome everyone. I am Tiana, Graham representing the Maternal Child Health Bureau, which is in our FIFA administration, prevention and health

promotion. So, next a little bit on our mission, well, our mission and vision, give you just a moment to skim that

**Kiauna Graham -MDH-:** Okay, and then so I'm providing a summary. Of our over of our RFA today. And as you know, everything is posted on Emma, all the questions and answers will be posted as well. So Sherida already went through that.

**Kiauna Graham -MDH-:** All right, so just a little bit about our programs the program. I'm representing is the Maryland Family Planning Program. We have a nearly 50 year history with the federal Maryland or the federal Title 10 program. We are a grantee. We also receive supplemental support by general state funds. So our program collaborates with public and private agencies to provide comprehensive family planning health services, there's 64 clinical service sites in 22 jurisdictions throughout, Maryland, so the Maryland Family Planning Program, delivers comprehensive, high quality reproductive health,

00:15:00

**Kiauna Graham -MDH-:** Lead coordination and collaboration with federal and state programs with significant impact on reproductive health.

**Kiauna Graham -MDH-:** UM, and the training program Fund. So MDH seeks to identify a coordinating organization with experiencing abortion, care training, programs to increase the number of qualified health professionals in community, and hospital-based settings who are trained to provide abortions. Our goals with this funding opportunity are to expand the number of health care professionals with abortion care training. Increase the racial and ethnic diversity among healthcare professionals with this training and identify clinical sites in need of training.

**Kiauna Graham -MDH-:** All right. Now, I'll go through the scope of work with which has eight components. So the first is a needs assessment. So using the health equity framework, we would like the organization to identify communities in Maryland that would benefit from additional providers. Including clients with a MET needs, current training programs and initiatives related to abortion, clinical care and the numbers and types of abortions provided To select clinical training sites and establish training requirements. So, that means that selecting clinical training sites and administering grants to develop training programs to at least.

**Kiauna Graham -MDH-:** To programs at two or more site, community based provider sites. If additional funding is available administer those grants to other community-based sites hospital based provider sites. Continuing education programs for qualified providers through professional associations and other clinical education programs. And for the training program requirements, we would need them to be consistent with evidence-based. Evidence-based training standards, come black comply with any applicable state laws and regulations and focus on provision of culturally congruent, care and include, implicit bias training.

**Kiauna Graham -MDH-:** Okay, three assists with matching applicants to training programs. So that means assisting with the interview and matching process developing and implementing a mechanism for potential trainees to apply electronically, assisting providers, who complete the training with finding employment. In abortion provider roles, And for program evaluation design and implement a program evaluation plan that includes process and outcome measures.

**Kiauna Graham -MDH-:** Fifth component is communication with MDH. So that would mean presenting an overview of the proposed work plan to mdh staff, within 30 days of the award. Conducting regular meetings with MDH staff to discuss the progress of the program. May initially be bi-weekly to monthly and then spaced out to after establishment to quarterly. Six provide staffing. So the staffing requirements are a project director to oversee, the project and staff to oversee. Each of the requirements of the scope of work. So staff to oversee, the needs assessment, this the training curriculum, the evaluation plan. And note that a single individual may per may fulfill multiple required staff roles, but the justification for combining roles must be provided.

**Kiauna Graham -MDH-:** Multiple individuals may fulfill a single staffing mode. Multiple individuals may fulfill a single staffing role, but the justification for additional staff must be provided. And for staffing. Also experiencing coordinating, clinical care. Training programs is preferred highlight this experience in the CD of the relevant team members. So deliverables would be a work plan that is due within 30 days after the award. Abortion Care Needs Assessment Report which includes elements specified in Section 3.2.1.2.

00:20:00

**Kiauna Graham -MDH-:** An annual report to MDH on the performance of the program attacks. Some a task summary is also a component of this scope of work. So, C Section 3.2.3.4 of the RFA for details. And the timelines here are approximate So, for August, due August 1st, of this year, present a work plan, conduct a needs assessment and compile the report by December 31st of this year. Identify training sites and administer grants by March 31st of next year. Assist, with applicant, selection and matching to sites by April 30th of next year. The implementation of the program, evaluation plan will be ongoing and provide an annual report by July 15th of next year.

**Kiauna Graham -MDH-:** so important to review are the key objectives, the scope of work, the timeline, and the deliverables, the test summary and the application format

**Kiauna Graham -MDH-:** And please just a reminder that to please read through the entire Request for Applications document, including all the attachments and an understanding of the program standards and requirements is vital for successful applications. All right, and that is it from me, thank you.

**Sherida Studwood -MDH-:** Section. Well, thank you. Miss Graham. All right,...

**Kiauna Graham -MDH-:** You're welcome.

**Sherida Studwood -MDH-:** so what I'm gonna do with this time I'm over at the floor from Q&A or questions and answer. I want to remind you anything that is said at this conference is not so until it's in writing so I'm gonna put myself on mute We do. Prefer that the questions be entered into this chat and then read out loud for the other individuals, but you also have the option to Raise your hand. So I'm going to open up the floor.

**Sherida Studwood -MDH-:** Now, if nobody asks the question, I'm gonna start singing.

**Sherida Studwood -MDH-:** It's Danielle. Well I could always trust that Danielle to do so yes Mary

**Mary Frank (she, her):** Hi, thank you. Are there and I know that you in there, you talked about, developing a curriculum. Are there any further guidelines about that? Or is that based on?

**Mary Frank (she, her):** You know, based on the coordinating agencies. Preference or whatever.

**Kiauna Graham -MDH-:** I'm sure there aren't any. There are any other details on providing. A curriculum. I think we would lean on the the organization, you know, experience and expertise the kind of to get a sense of the curriculum

**Mary Frank (she, her):** Great. Thank you.

**Sherida Studwood -MDH-:** I also want to remind the attendees is that we may not have all the answers here. We do advise that you submit your questions and write it so that we can do a powwow and get you a uniform answer. But, you know, we don't want to guess. So, we do advise. If you know, if we need to, you know, table it, and get back to you, that's what we will do. So well clarity Mary, I would suggested submit in that. And then, you know, we'll look at it and then give you more more additional clarification. Thank you. Okay. Any other questions?

**Sherida Studwood -MDH-:** We were that thorough. Okay.

**Sherida Studwood -MDH-:** all right, so If there are any other questions and just feel free to interrupt me while I'm talking. If you do have a question that you would like to Ask just, you know, chime right in but I'll keep moving.

00:25:00

**Sherida Studwood -MDH-:** And I'm gonna say it again. Anything said that this conference is, unless it's in writing it Does not mean anything. That's not the right way to say. That. But anyway, All right, I want to stress that the sealed applications are due no later than May 15 2023 at 2 pm Eastern Standard Time in Emma please allow yourself enough, time to submit to email and marketplace. No, we would not do it. You must check Emma website for addendums. so, It is not our responsibility. It is a responsibility of the applicant to make sure that they have all the necessary paperwork or denims or any other additional information that have been added.

**Sherida Studwood -MDH-:** All again, those must be acknowledged and submitted with the application. So, that's why you want to check, right? You have to make sure that all the requested documents are completed and signed. Okay. Yes, Nikita.

**Nikita Real -MDH-:** You have a question in the chat.

**Sherida Studwood -MDH-:** Thank you. What kind of addendos might be added to Emma? Oh well I don't know if Miss Graham's gonna add this a presentation. That probably be helpful. Miss Graham, will you be doing that?

**Kiauna Graham -MDH-:** Yes, I could at the presentation. Everything I think I think it's worth the word copy from the RSA, but we could do that. Definitely. Would you say?

**Sherida Studwood -MDH-:** Yours. Look prettier. Yours. Look prettier.

**Kiauna Graham -MDH-:** Oh, okay thank you. Well yes it can be it.

**Sherida Studwood -MDH-:** Yeah. Other items. Thank you. Other items that can be added that would be added to Emma would be an extension of a deadline and addendum or additional information or something removed. So those are the type of things that will be uploaded to Emma. Did I ask you a question, Mary?

**Sherida Studwood -MDH-:** Okay, any other questions?

**Sherida Studwood -MDH-:** Oh, okay. Well, all right. So I think again applications are due May 15th 2023. Make sure you pay attention to the questions, due date.
